Payment should be submitted with application in full. This will allow the farm to make provisions for the season. Make checks payable to **Lorren Pogson** proprietor of Maizey's Market, 42 Hotchkiss Road, Farmington, Ct. 06032

I understand that this a community supported agriculture membership. The farm is committed to providing quality produce. However there are risks in farming (Primarily Mother Nature,) that are shared by the CSA community. On occasion we may need to substitute crops due to weather and growing conditions. In the unlikely event of a total crop failure, you may not receive your full shares. I understand that my payment entitles me to a share of the produce grown and harvested by Maizey's Market during the 2016 growing season, according to the membership option I have chosen and the pickup day.
